- PHP & Laravel Framework
- RESTful API Development
- MySQL Database Management
- html ,css
- Proficiency in Microsoft Office Suite (Word,Excel,PowerPoint)

PROFESSIONAL EXPERIENCE

- Laravel Developer
- SpikeCode Company – [Aleppo al-gamilia]
- [2024]
- Worked on multiple web development projects using Laravel framework, focusing on building efficient backend systems and user-centric designs.

PROJECTS

- **Travel Around the World:**
  Developed a comprehensive travel booking platform enabling users to book flights, hotels, explore popular restaurants and view tourist attractions in their desired destination.
- Implemented advanced search and filter functionalities for seamless user experience.
- Integrated third-party APIs for real-time flight and hotel availability.
- Ensured a responsive and user-friendly interface.
- **Airplan:**
  Built a web-based flight reservation system allowing users to manage their bookings, track flight schedules, and customize preferences.
- Designed a robust backend to support real-time updates and booking confirmations.
- Enabled user account management and booking history tracking.
- Focused on security measures to protect sensitive data**.**
- **Dental Clinic Management System (Backend Laravel Project):**
  Designed and implemented a dental clinic management system to streamline operations for doctors, nurses, and patients.
- Developed functionalities for doctors to assign tasks, manage appointments, track patient records, and send notes to patients.
- Created role-based access for nurses to manage schedules and assist with tasks.
- Enabled patients to book appointments, communicate with doctors, and monitor their health records.
- Optimized the system for scalability and enhanced security protocols.
